- Team work

EDUCATION

- **Artificial Intelligence Engineering**

  National Polytechnic Institute
  2021-2025

- **Programming Technician**

  National Polytechnic Institute
  2018-2021

ABOUT ME

I am a motivated software developer, programming for four years to develop systems for multiple platforms, especially web application development. I am passionate about solving problems creatively. I adapt quickly to new environments and I really enjoy learning new tools. I also like to write clean and standardized code. With my experience I seek to contribute to the development of technological tools that help humans have a more efficient and simple life.

EXPERIENCIA LABORAL

Web developer

Alianza de Donatarias en Adicciones
2022-present

Development of web application for organizational communication. I participated from the requirements gathering to the deployment and maintenance

- Talk to the user
- Configure the server
